

HOLE 6

A big par 5 and all dependent of wind direction. Elevated Tee gives a great view of what is required. The driver required here; to ride the wind or stay under it. It is really important to set this hole up by being in the middle of the fairway and with as much distance as possible. The second is the money shot and critical to get the ball on the right side of fairway and as close to the 100m marker or better. With the 3rd the landing on the narrow two tired green is needed to prevent ball rolling of the steep sides of the green. Should be a regulation two putt or better. Fall off the sides and headaches arrive with limited landing space for recovery.
