

HOLE 8

Another great hole, and it can be played with a number of different strategies.... a big dog-leg to the left suits high right hand draws or left hand fades but you have to get the distances correct.....too long and you will be in the middle of the 16th fairway & green now obstructed by tall old gum tree, too short and you are in the woods praying it is not lost, and for a view of the green. Orthodox straight drives to corner and middle of the fairway will leave you about 120m out from the green...I won't mention the short 9 iron Tee shot as this is a local's strategy. The green is full of breaks and nuances, so get as close to pin as possible or 3 putts beckon.
