

HOLE 9

Only one hole to play and you have finished the first 9 holes. A real opportunity to 'cash in' with a long straight drive and a short pitch onto a reasonably friendly green. Just a grass bunker on the right hand of the fairway at about 200m and a further green-side grass bunker...only a problem if the pin is on extreme right side of green...also we must mention the fairway is uphill (a rise of 40m) and the trees tend to hide the swirling wind up in the canopy so judgement of distance is problematic. And the locals will warn you about avoiding Gonzo's Nose on the drive....so many potentially great drives destroyed by this MPGC feature. So how did you go? (relative to the outward par).

37 for Men and 36 for Women.
