

# **HOLE 10**

**Ready to start the back nine? And critical in the count-back. Hole 10 is great way to start. From an elevated Tee some 45m above the green and 200m to a flat fairway. For some the green is almost drive-able, so for this hole a par is a must and a birdie an ambition. Apart from tall timber on both sides of the fairway there should be little fear...(unless your drive is wayward). The green here is the intrigue and rises up in the centre to fall way sharply at the back, so pin placement will determine strategy to the green.**
