

HOLE 15

This hole requires great shape off the Tee to reach the 100m point and in the middle of the fairway. The green has some hidden nuances so you will need to get as close to the pin as possible. Again the Mount Pleasant 'woods' will make you pay if you drift off line. As for the green, we again have water...this time on the left hand side of the green and a penalty area to the right of the green...and mounds on both surroundings of the green to encourage wayward shots and explore the hazards.
