

HOLE 16

With a well shaped drive you can set up a real opportunity to reach the green in 2. But you need to avoid the hummocks and stay away from the trees on both sides, as they notoriously capture balls and are reluctant to let you out...many have found themselves channelled down the tree line and racking up shots. The green is long and you can find yourself with a 20m putt on another of our 'nuanced' greens.... you expected flat at Mount Pleasant!!?
